

Promote your brand with custom straw dispensers.

Custom straw dispensers are an economical and ideal way to promote your brand at eyeline level on the premium space in any store...the counter.

Straw dispensers can be manufactured in almost any colour. Minimum production run is 200 units. The promotional panel at the front is ideal for changing promotions. Dispensers are easy to fill, usually with a small door at the back. Spring loaded front delivers a clean straw every time.
