

Ticketing

Pre-Printed Computer Tickets

Pre-printed Computer Tickets make it quick, easy and economical to make up retail tickets with any standard ink jet or laser printer. Tickets are A4 size either singly or 9 small tickets on one sheet for some designs.

Sturdy backing provides support while the ticket is fed through your computer.

Backing can be peeled off for a self-adhesive ticket or left on for use as a normal ticket.

Tickets are available in either an A4 single ticket or 9 small 68 x 99 mm tickets on an A4 sheet.

Some designs are available in both sizes.
