TIPS ON MAINTAINING YOUR PRICING GUN

These tips will help you obtain the best results and extend the life of your pricing gun.

1. Use only the specified labels and ink rollers in your gun. Other brands will not fit or work correctly.
2. When changing a roll of labels, open the gun fully and give it a quick inspection. Remove any dust, stray labels or gum build-up from the inside the gun with a cotton bud dipped in Methylated Spirits.
3. Do not attempt to re-ink the ink roller. Most inks are acidic and may eat away the numbers on the bands.
4. Labels and Ink rollers will keep for 2-3 years if kept in a cool, dry place away from direct light.
5. For best results, the ink roller should be changed whenever you open a new pack of labels, or, every 12 months if your usage is less than 1 pack per year.
6. In the unlikely event that your price gun malfunctions, do not attempt to pull it apart. Properly trained technicians are available to advise you if repairs are possible.
