Custom Tickets available in Production Quantities

### SCANSTRIP OPENER

Small plastic tool for opening Scanstrip to insert tickets.

Ideal for refrigerated areas where Scanstrip is harder to open, or where the correct Scanstrip opening technique, (front pressure on the bottom of the strip), cannot be used. 73mm (L) x 20mm (W) x 10mm (D).

**ELF-SPFT**

### HINGED DATA POS GRIP

Holds a small ticket parallel to scanstrip.

Flips up out of the way as stock is removed from shelf.

Packs of 20

**DA-PGDS**

### HINGED DATA 90 DEGREE POS GRIP

Holds a small ticket at 90° to Scanstrip.

Flips up out of the way when stock is removed from shelf.

Packs of 20

**DA-PGDF**

### PARALLEL CLIPS

These tiny economical clips simply slide over the top edge of Scanstrip and hold a small ticket firmly in position.

Packs of 500

**SC-25**

### SHELF WOBLER

Light weight plastic wobblers have an adhesive pad at each end.

Attach one end to the shelf and add a promotional card to the other end. Card will hang parallel to the shelf. 150mm long, Packs of 100

**DA-WC**

The light globe section in a hardware store, both before, and after the installation of Mary Tray Shelf Management System. A simple and economical presentation solution.
