

## FLAG ARM

Light weight flag holder has 2 clear hooks for holding light weight flags. Hooks slide to any position. Very strong magnetic base. Jointed elbow adjusts a full 180° for vertical, horizontal or angled display.

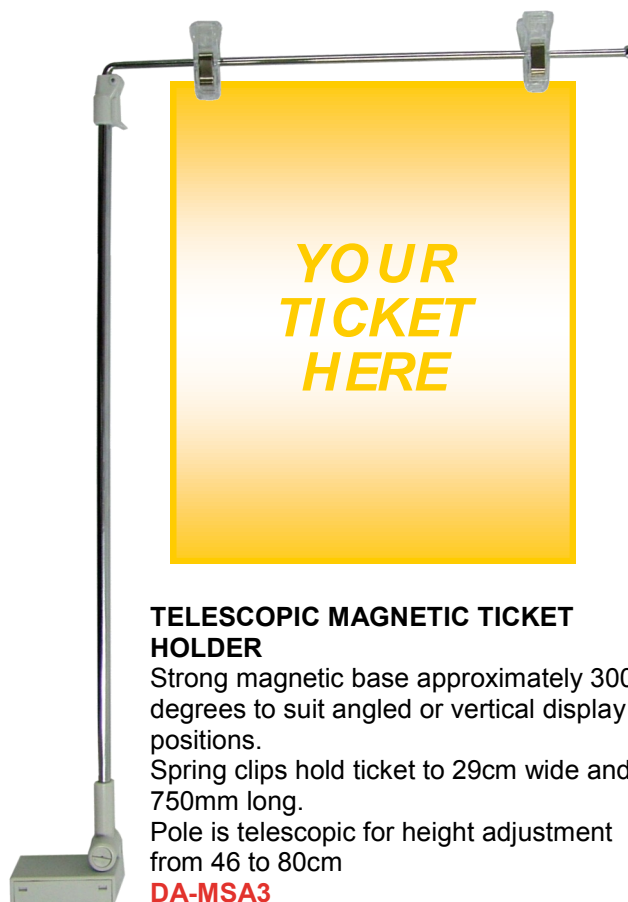

To adjust display position:

1. Hold base in left hand.
2. With right hand, hold and pull arm to the right, turn to desired position, then push arm back in towards base until it is fully locked into position.

Base: 70 x 38 x 16mm

Custom sizes available in production quantities.

25cm arm **DA-FLAGARM25**

## TELESCOPIC MAGNETIC TICKET HOLDER

Strong magnetic base approximately 300 degrees to suit angled or vertical display positions.

Spring clips hold ticket to 29cm wide and 750mm long.

Pole is telescopic for height adjustment from 46 to 80cm

**DA-MSA3**
